Subject Index

a

- abdominal abscesses, imaging studies for (*tip*), September, p. 244
- abdominal aneurysm surgery, prostatism and (*tip*), August, p. 249
- abdominal disease, acute, in the elderly (*tip*), October, p. 287
- abortion, induced, and subsequent pregnancy loss (*tip*), September, p. 246
- accidental deaths, drownings rank third in (*news*), October, p. 300
- accidents
 - in the elderly, *July, p. 117
 - speed limit, and chest injuries (*tip*), September, p. 225
- adenocarcinoma of the colon (*tip*), August, p. 229
- adenovirus gastroenteritis (*tip*), November, p. 261
- adolescent girls, pelvic examination of, *October, p. 105
- adrenalectomy, medical (*tip*), August, p. 244
- aged, cancer in, *October, p. 113
- AIDS epidemic, CDC updates trends in (*news*), November, p. 290
- alcoholics, recovering, study focuses on duration of depression in (*med*), August, p. 221
- alcoholism, screening for, *July, p. 179
- allergy, insect, in children (*tip*), July, p. 236
- allergy immunotherapy, *November, p. 219
- alpha-fetoprotein in diabetic mothers (*tip*), August, p. 241
- Alzheimer's disease
 - inheritability of (*info pl*), November, p. 56
 - and senile dementia (*tip*), July, p. 226
- amblyopia: protecting the better eye, *November, p. 123
- amiodarone therapy, complications with (*tip*), July, p. 226
- amputee's coping ability, study gives insight into (*med*), July, p. 208
- analgesia, self-administered, post-operative patients benefit from (*med*), November, p. 240
- anemia
 - autoimmune hemolytic, in children, *August, p. 131
 - hemolytic, with G6PD deficiency (*tip*), December, p. 211
- anesthesia
 - noncardiac surgery and, in patients with heart disease, *August, p. 204
 - personnel have a high incidence of hepatitis B (*med*), November, p. 239
- anesthetic agents, modern, *November, p. 235
- aneurysm surgery, abdominal, prostatism and (*tip*), August, p. 249
- aneurysms, coronary artery (*tip*), December, p. 188
- angina, Ludwig's (*tip*), September, p. 220
- angioplasty, transluminal, embolization following (*tip*), August, p. 254
- angiotension-converting enzyme levels, serum (*tip*), August, p. 254
- anorexia nervosa, *November, p. 199
- anorexiant
 - body weight set point, obesity and (*ed*), November, p. 115
 - nonprescription, *September, p. 206
- anovulation, chronic, and subsequent breast cancer, study links (*med*), December, p. 173
- antacids impair absorption of cimetidine (*tip*), November, p. 258
- antiarrhythmic drugs, new, *November, p. 226
- antibiotic prophylaxis, heart disease and (*tip*), July, p. 214
- antibiotics
 - for bowel surgery (*tip*), August, p. 262
 - for exacerbation of chronic bronchitis (*tip*), December, p. 182
- antibody therapy of digoxin intoxication (*tip*), November, p. 264
- antidepressants, tricyclic, and cardiac disease (*tip*), July, p. 230
- antiemetics
 - *July, *p. 200
 - for chemotherapy-induced nausea (*info pl*), September, p. 21
- anti-inflammatory drugs and esophageal stricture (*tip*), November, p. 274
- antipsychotic drugs, unusual complications of, *October, p. 153
- antireflux prosthesis, migration of (*tip*), November, p. 268
- Anturane reinfarction trial reassessed (*tip*), July, p. 234

anxiety and depression, physician examines, in elderly patients (*news*), July, p. 240

apnea, 'near-miss,' home monitoring of (*tip*), November, p. 249

appendiceal abscess (*tip*), November, p. 282

appendicitis

- *November, p. 127
- complicated, combination drug therapy for (*tip*), October, p. 259

arrhythmias in cardiac arrest survivors (*tip*), October, p. 233

arteritis, giant cell, of the upper extremity (*tip*), October, p. 236

arthritis

- cervical, three-dimensional CT enhances evaluation of (*med*), October, p. 228
- juvenile psoriatic (*tip*), July, p. 229
- juvenile rheumatoid, *August, p. 139

aspirin

- (*ed*), August, p. 113
- is, unsafe in pregnancy? (*ed*), September, p. 113
- use, studies link, to Reye's syndrome (*news*), July, p. 245

asthma

- childhood, chest x-rays in (*tip*), October, p. 251
- childhood, parental smoking and (*tip*), September, p. 226

atenolol, actions of, in hypertension (*tip*), October, p. 246

atypical measles syndrome (*tip*), December, p. 211

- azathioprine for chronic ulcerative colitis (*tip*), September, p. 235

azotemic patients, combined diuretics in (*tip*), September, p. 219

b

B₁₂ deficiency, diagnosing, Schilling test is imperative in (*med*), July, p. 206

back pain in cancer patients demands a search for epidural metastasis (*med*), July, p. 205

bacteremia and clinical disease in children (*tip*), October, p. 233

bacterial cholangitis, acute (*tip*), August, p. 232

bacteriology of salpingitis (*tip*), August, p. 230

Bell's palsy, biopsies in, reveal various stages of degeneration (*med*), July, p. 206

benzyl alcohol and neonatal death (*tip*), October, p. 287

beta-adrenergic blockade and exercise (*tip*), September, p. 238

biliary colic and functional gallbladder disease (*tip*), November, p. 284

biliary drains and stents, endoscopically placed, *August, p. 189

biliary obstruction

- diagnostic tests for (*tip*), October, p. 289
- nonsurgical management of (*tip*), October, p. 278

biotin deficiency (*tip*), August, p. 241

bismuth subsalicylate, doxycycline, interaction (*tip*), September, p. 220

bladder problems in CP children, study documents (*med*), November, p. 242

body weight set point, obesity and anorexics (*ed*), November, p. 115

bowel surgery, antibiotics for (*tip*), August, p. 262

breast cancer

- axillary sampling in (*tip*), August, p. 258
- CEA and (*tip*), September, p. 219
- doxorubicin in (*tip*), September, p. 228
- epidemiology of (*tip*), September, p. 246
- locally advanced, treatment (*tip*), October, p. 276
- study links chronic anovulation and subsequent (*med*), December, p. 173
- treating, without mastectomy (*tip*), September, p. 252

breast disease, fibrocystic, medical management of (*tip*), July, p. 228

bronchitis

- chronic, antibiotics for exacerbation of (*tip*), December, p. 182
- hemophilus influenzae, and pneumonia, *November, p. 153

bronchogenic carcinoma, radiation therapy in (*tip*), October, p. 242

bronchopulmonary dysplasia, SIDS and (*tip*), July, p. 232

bruits, carotid, significance of (*info pl*), September, p. 21

bunions (*tip*), September, p. 250

burns, early excision of (*tip*), November, p. 252

C

calcium deficiency, MDs often neglect (*news*), August, p. 275

cancer

- in the aged, *October, p. 113
- breast, axillary sampling in (*tip*), August, p. 258
- breast, CEA and (*tip*), September, p. 219
- breast, doxorubicin in (*tip*), September, p. 228
- breast, epidemiology of (*tip*), September, p. 246
- breast, locally advanced, treatment (*tip*), October, p. 276
- breast, study links chronic anovulation and subsequent (*med*), December, p. 173
- breast, treating, without mastectomy (*tip*), September, p. 252
- cervical, cryosurgery and (*tip*), July, p. 218
- cervical, during pregnancy (*tip*), November, p. 260
- cervical, prognosis best correlates with lesion's depth (*med*), September, p. 213
- colon, adjuvant therapy has little impact on (*med*), July, p. 205
- colon, stool guaiac has low sensitivity for (*med*), December, p. 174
- following gastric surgery (*tip*), July, p. 219
- gastric, researchers urge more efforts to diagnose, early (*med*), December, p. 174
- head and neck, chemotherapy of (*tip*), October, p. 235
- lung, emphysema, coronary disease and (*tip*), October, p. 254
- lung, inoperable, becomes resectable with chemotherapy (*med*), July, p. 205

- lung, screening for (*tip*), September, p. 236
- pancreatic, radiotherapy of (*tip*), October, p. 268
- of unknown origin, CT scanning for (*tip*), October, p. 255
- cancer chemotherapy, late effects of (*tip*), October, p. 262
- cancer patients
 - back pain in, demands a search for epidural metastasis (*med*), July, p. 205
 - cure rate for, reaches 45 percent (*news*), December, p. 217
- cancer risk, oral contraceptives in (*tip*), December, p. 177
- carbamazepine-isoniazid intoxication (*tip*), November, p. 262
- carcinoma, bronchogenic, radiation therapy in (*tip*), October, p. 242
- cardiac arrest survivors, arrhythmias in (*tip*), October, p. 233
- cardiac contusion, suspected, non-invasive tests in (*tip*), December, p. 205
- cardiac disease, tricyclic antidepressants and (*tip*), July, p. 230
- cardiac enzymes, high, syndrome of, without disease is noted (*med*), August, p. 221
- cardiac pacing, permanent, indications for, *July, p. 186
- cardiac performance, preoperative testing of (*tip*), November, p. 257
- cardiovascular fitness, *September, p. 163
- carotid body tumors (*tip*), September, p. 243
- carotid bruits, significance of (*info pl*), September, p. 21
- CEA and breast cancer (*tip*), September, p. 219

- cerebral hemorrhage, study identifies indicators of, in stroke victims (*med*), September, p. 214
- cerebral infarction, endocarditis and mitral prolapse may incite (*med*), July, p. 206
- cerebral palsy
 - children with, are at risk for abuse (*med*), November, p. 242
 - 'outgrowing' (*tip*), September, p. 230
- cervical arthritis, three-dimensional CT enhances evaluation of (*med*), October, p. 228
- cervical cancer
 - cryosurgery and (*tip*), July, p. 218
 - during pregnancy (*tip*), November, p. 260
 - prognosis best correlates with lesions' depth (*med*), September, p. 213
- cesarean section(s)
 - elective, timing of (*tip*), September, p. 244
 - Group B streptococcus and (*tip*), July, p. 229
- chancroid (*tip*), August, p. 246
- chemotherapy
 - cancer, late effects of (*tip*), October, p. 262
 - of head and neck cancer (*tip*), October, p. 235
 - inoperable lung cancer becomes resectable with (*med*), July, p. 205
- chemotherapy-induced nausea, antiemetics for (*info pl*), September, p. 21
- chest injuries, speed limit, accidents and (*tip*), September, p. 225
- chest x-rays in childhood asthma (*tip*), October, p. 251

chlamydial antibodies, prevalence of (*tip*), September, p. 239
 chlamydial conjunctivitis, treatment of (*tip*), December, p. 178
 chlamydial infections are named as possible risk factor in stillbirths (*news*), July, p. 240
 cholangiography, intravenous, current status of (*tip*), November, p. 249
 cholangitis, acute bacterial (*tip*), August, p. 232
 cimetidine
 — antacids impair absorption of (*tip*), November, p. 258
 — drug interactions (*ed*), August, p. 114
 — potentiates lidocaine toxicity (*tip*), October, p. 241
 coarctation of the aorta
 — (*tip*), July, p. 225
 — (*tip*), November, p. 278
 colic
 — biliary, and functional gall-bladder disease (*tip*), November, p. 284
 — infantile, cow's milk formula and (*tip*), November, p. 262
 colitis
 — longstanding, yearly colonoscopy is recommended in (*med*), October, p. 225
 — severe, study identifies steroid of choice for (*med*), December, p. 174
 colon, adenocarcinoma of (*tip*), August, p. 229
 colon cancer
 — adjuvant therapy has little impact on (*med*), July, p. 205
 — stool guaiac has low sensitivity for (*med*), December, p. 174
 colonoscopy
 — second look at (*tip*), December, p. 187

— yearly, is recommended in longstanding colitis (*med*), October, p. 225
 compliance, hypertensive patient, step-care approach to improving, *July, p. 155
 conjunctivitis
 — chlamydial, treatment of (*tip*), December, p. 178
 — gonococcal, neonatal, prophylaxis of (*tip*), December, p. 192
 conjunctivitis-otitis syndrome (*tip*), November, p. 251
 consciousness, transient loss of (*tip*), October, p. 273
 contraceptives, oral, in cancer risk (*tip*), December, p. 177
 coronary artery aneurysms (*tip*), December, p. 188
 coronary artery disease
 — platelet function in (*tip*), October, p. 244
 — platelets in (*tip*), November, p. 278
 coronary disease, emphysema, and lung cancer (*tip*), October, p. 254
 CP children, study documents bladder problems in (*med*), November, p. 242
 CPAP, intermittent, by mask (*tip*), November, p. 261
 Crohn's disease, perianal (*tip*), October, p. 235
 croup
 — *December, p. 113
 — recurrent (*tip*), August, p. 242
 cryosurgery and cervical cancer (*tip*), July, p. 218
 CT
 — clarifies the nature of pelvic fractures (*med*), October, p. 228

— three-dimensional, enhances evaluation of cervical arthritis (*med*), October, p. 228
 CT scanning for cancer of unknown origin (*tip*), November, p. 255
 cystic fibrosis, sweat test in (*tip*), July, p. 228

d

dehydrated child, managing, *November, p. 189
 dementia
 — impact of, on the family (*ed*), December, p. 100
 — senile, Alzheimer's disease and (*tip*), July, p. 226
 depression
 — *December, p. 156
 — anxiety and, in elderly patients, physician examines (*news*), July, p. 240
 — in recovering alcoholics, study focuses on duration of (*med*), August, p. 221
 dermatology in the workplace, *December, p. 103
 DES exposure, effects of (*tip*), August, p. 240
 diabetes mellitus, herpes zoster in (*tip*), August, p. 263
 diabetic ketoacidosis in childhood, *July, p. 107
 diabetic ketoacidosis therapy, pitfalls of (*ed*), November, p. 116
 diabetic mothers, alpha-fetoprotein in (*tip*), August, p. 241
 diabetics
 — immunity studies give hope for (*news*), August, p. 268
 — insulin pump use not for all (*news*), December, p. 220
 dialysis patient, uncooperative (*tip*), August, p. 231

diarrhea, infantile, oral rehydration for (*tip*), September, p. 231
 digitalis controversy, *August, p. 217
 digoxin intoxication, antibody therapy of (*tip*), November, p. 264
 digoxin levels, serum, verapamil elevates (*tip*), August, p. 259
 digoxin therapy for compensated heart failure (*tip*), November, p. 276
 diuretics, combined, in azotemic patients (*tip*), September, p. 219
 dog bites, fatal (*tip*), July, p. 218
 doxorubicin in breast cancer (*tip*), September, p. 228
 doxorubicin cardiotoxicity, monitoring (*tip*), November, p. 254
 doxycycline-bismuth subsalicylate interaction (*tip*), September, p. 220
 drownings rank third in accidental deaths (*news*), October, p. 300
 dry mouth in elderly patients (*info pl*), November, p. 55
 duodenal ulcer, surgical treatment of (*tip*), September, p. 225
 dyspnea in motor neuron disease (*tip*), August, p. 236

e

ectopic pregnancy
 — *October, p. 161
 — diagnosis of (*tip*), December, p. 192
 elderly
 — accidents in, *July, p. 117
 — acute abdominal disease in (*tip*), October, p. 287
 — effects of relocation on, *November, p. 144
 — remarkable benefits of walking are noted in (*med*), July, p. 208

elderly patients
 — appear to be good candidates for lung resection (*med*), November, p. 240
 — dry mouth in (*info pl*), November, p. 55
 — physician examines anxiety and depression in (*news*), July, p. 240
 embolization following transluminal angioplasty (*tip*), August, p. 254
 emphysema, coronary disease and lung cancer (*tip*), October, p. 254
 endocarditis
 — culture-negative (*tip*), July, p. 215
 — and mitral prolapse may incite cerebral infarction (*med*), July, p. 206
 endometrial implants can be destroyed with a laser (*med*), September, p. 213
 endorphins in septic shock (*tip*), November, p. 270
 endoscopic laser therapy (*tip*), August, p. 232
 endoscopically placed biliary drains and stents, *August, p. 189
 endotracheal intubation of the neonate, *October, p. 123
 enterocolitis, infantile necrotizing, *October, p. 119
 epiglottitis, acute, in adults, *August, p. 183
 erythroblastopenia, transient (*tip*), October, p. 282
 esophageal perforation (*tip*), August, p. 260
 esophageal stricture, anti-inflammatory drugs and (*tip*), November, p. 274
 exercise, beta-adrenergic blockade and (*tip*), September, p. 238

f

Fansidar® prophylaxis for malaria (*tip*), September, p. 228
 father as a single parent (*tip*), July, p. 213
 Feingold diet for the hyperactive child (*ed*), October, p. 101
 fetal heart rate monitoring (*tip*), November, p. 256
 fetal maturity, phosphatidylglycerol may supplant L/S ratio for (*med*), August, p. 225
 fever, potassium iodide as a cause of (*tip*), December, p. 182
 fibrocystic breast disease, medical management of (*tip*), July, p. 228
 fluoride supplementation in pregnancy (*tip*), October, p. 273
 Fournier's gangrene (*tip*), November, p. 275

g

G6PD deficiency, hemolytic anemia with (*tip*), December, p. 211
 gallbladder disease, functional, biliary colic and (*tip*), November, p. 284
 gallium scanning in sarcoidosis (*tip*), November, p. 267
 gallstones, trends in the natural course of, are reported (*med*), October, p. 225
 gangrene, Fournier's (*tip*), November, p. 275
 Gardner's syndrome (*tip*), August, p. 263
 gastric cancer, researchers urge more efforts to diagnose, early (*med*), December, p. 174
 gastric lymphoma (*tip*), August, p. 245

gastric surgery, cancer following (*tip*), July, p. 219
 gastroenteritis, adenovirus (*tip*), November, p. 261
 gastroesophageal reflux (*tip*), November, p. 266
 gastrointestinal bleeding, upper, vasopressin for (*tip*), September, p. 245
 Gaucher's disease, researchers investigate (*news*), October, p. 301
 genital herpes infection (*tip*), July, p. 213
 gestational age, nonstress tests and (*tip*), September, p. 248
 GI bleeding, upper, early signs predict outcome of (*med*), September, p. 213
 giant cell arteritis of the upper extremity (*tip*), October, p. 236
 gonococcal conjunctivitis, neonatal, prophylaxis of (*tip*), December, p. 192
 granulocyte transfusions in neonates (*tip*), November, p. 251
 growth retardation
 — intrauterine (*tip*), July, p. 222
 — intrauterine, *November, p. 171
 gynecologic malignancies, hypercalcemia and (*tip*), October, p. 255

h

hallucinosis from nasal drops (*tip*), July, p. 225
 health, child, and social status (*tip*), September, p. 229
 health examinations
 — periodic, what should be done? (*ed*), July, p. 102
 — value of children's (*tip*), September, p. 224

hearing loss in low-birth-weight infants (*tip*), November, p. 252
 heart disease
 — and antibiotic prophylaxis (*tip*), July, p. 214
 — congenital, prostaglandins and the management of, *December, p. 127
 — ischemic, effects of nifedipine in (*tip*), July, p. 230
 — patients with, noncardiac surgery and anesthesia in, *August, p. 204
 — radiation-induced (*tip*), August, p. 260
 heart failure, compensated, digoxin therapy for (*tip*), November, p. 276
 heat-related deaths, CDC examines risk of (*news*), September, p. 259
 heat stroke, preventing, *July, p. 137
 Heberden's nodes (*info pl*), November, p. 55
 hemolytic anemia
 — autoimmune, in children, *August, p. 131
 — with G6PD deficiency (*tip*), December, p. 211
 hemolytic-uremic syndrome, postpartum (*tip*), August, p. 263
 hemophilus influenzae bronchitis and pneumonia, *November, p. 153
 hemorrhage
 — intracranial, phencyclidine abuse and (*tip*), November, p. 276
 — intraoperative, physiologic responses to (*tip*), August, p. 253
 — subarachnoid, relationship of smoking and (*tip*), August, p. 241

heparin prophylaxis, low-dose (*tip*), October, p. 275
 hepatic portal venous gas, *November, p. 185
 hepatitis associated with rubeola (*tip*), July, p. 234
 hepatitis B, anesthesia personnel have a high incidence of (*med*), November, p. 239
 hepatitis B viral infection
 — part I. clinical features, *August, p. 119
 — part II. public health aspects, *September, p. 135
 hepatitis B virus vaccine for high-risk groups (*tip*), October, p. 242
 hepatobiliary system, radionuclide evaluation of, *October, p. 203
 herniated disc, back extension foretells success of therapy for (*med*), December, p. 173
 herpes, knowledge of, research is expanding (*news*), August, p. 271
 herpes infection, genital (*tip*), July, p. 213
 herpes zoster in diabetes mellitus (*tip*), August, p. 263
 Hodgkin's disease, atypical monocytes in (*tip*), July, p. 215
 homosexual males, generalized lymphadenopathy in (*tip*), September, p. 235
 homosexual men, unusual diseases in (*tip*), September, p. 249
 hyaline membrane disease prognosis (*tip*), October, p. 246
 hydralazine in right ventricular failure (*tip*), October, p. 241
 hydralazine therapy for pulmonary arterial hypertension (*tip*), July, p. 213

hyperactive child
 – *October, p. 210
 – Feingold diet for (*ed*), October, p. 101

hyperactive children
 – (*ed*), October, p. 101
 – how, feel about stimulants (*tip*), December, p. 202

hyperbaric chamber for leg ulcers, plastic bag makes good (*med*), August, p. 222

hypercalcemia and gynecologic malignancies (*tip*), October, p. 255

hyperemesis gravidarum, brief psychotherapy for, *November, p. 179

hypersensitivity vasculitis, *July, p. 171

hypertension
 – actions of atenolol in (*tip*), October, p. 246
 – essential, in childhood (*tip*), December, p. 205
 – mild, is treated successfully with nondrug therapy (*news*), September, p. 261
 – pulmonary arterial, hydralazine therapy for (*tip*), July, p. 213
 – pulmonary, primary (*tip*), August, p. 250
 – pulmonary, prostacycline and (*tip*), November, p. 258

hypertensive patient compliance, step-care approach to improving, *July, p. 155

hyperthermia, malignant (*tip*), August, p. 237

hyperviscosity, neonatal (*tip*), August, p. 252

hypoglycemia, tumor-induced (*tip*), November, p. 263

i

inattention among children with school problems (*tip*), December, p. 180

Indochinese refugees, caring for, *September, p. 157

infantile colic, cow's milk formula and (*tip*), November, p. 262

infantile diarrhea, oral rehydration for (*tip*), September, p. 231

infarction of the right ventricle (*tip*), September, p. 222

infertility, laparoscopy in (*tip*), November, p. 279

insect allergy in children (*tip*), July, p. 236

insulin pump(s)
 – (*info pl*), August, p. 45
 – use not for all diabetics (*news*), December, p. 220

interatrial septum, lipomatous hypertrophy of (*tip*), November, p. 270

intra-abdominal infection (*tip*), July, p. 232

intracranial hemorrhage, phencyclidine abuse and (*tip*), November, p. 276

intrauterine growth retardation
 – (*tip*), July, p. 222
 – *November, p. 171

intussusception, idiopathic infantile, *July, p. 165

iron deficiency, developmental deficits in (*tip*), August, p. 244

irritable colon syndrome of infancy, *September, p. 127

ischemic heart disease, effects of nifedipine in (*tip*), July, p. 230

isoniazid, carbamazepine-, intoxication (*tip*), November, p. 262

IUDs postpartum (*tip*), September, p. 245

IVP, indications for, after blunt trauma are delineated (*med*), October, p. 228

j

jogger, obese (*tip*), July, p. 219

juvenile psoriatic arthritis (*tip*), July, p. 229

juvenile rheumatoid arthritis, *August, p. 139

k

Kaposi's sarcoma, *October, p. 133

Kartagener's syndrome (*tip*), August, p. 244

Kawasaki disease outbreak (*tip*), August, p. 250

ketoacidosis, diabetic, in childhood, *July, p. 107

l

laparoscopy in infertility (*tip*), November, p. 279

laser therapy, endoscopic (*tip*), August, p. 232

leg ulcers, plastic bag makes a good hyperbaric chamber for (*med*), August, p. 222

leprosy, *November, p. 161

lidocaine toxicity, cimetidine potentiates (*tip*), October, p. 241

light scope shows promise as a useful screening tool (*med*), October, p. 226

lipomatous hypertrophy of the interatrial septum (*tip*), November, p. 270

lipoprotein abnormalities in viral infections (*tip*), October, p. 244

liver, posterior needle biopsy of (*tip*), August, p. 242

- liver disease, drug disposition in, *December, p. 167
- liver involvement in secondary syphilis (*tip*), July, p. 222
- L/S ratio, phosphatidylglycerol may supplant, for fetal maturity (*med*), August, p. 225
- low-birth-weight infants, hearing loss in (*tip*), November, p. 252
- Ludwig's angina (*tip*), September, p. 220
- lumbar sympathectomy with vascular reconstruction (*tip*), November, p. 272
- lung, pneumonia simulating tumor of, *December, p. 117
- lung biopsy yield outweighs the risk in acute respiratory failure (*med*), November, p. 242
- lung cancer
 - inoperable, becomes resectable with chemotherapy (*med*), July, p. 205
 - screening for (*tip*), September, p. 236
- lung resection, elderly patients appear to be good candidates for (*med*), November, p. 240
- lupus, drug-induced (*tip*), August, p. 230
- lymph node biopsy in children (*tip*), August, p. 235
- lymphadenopathy, generalized, in homosexual males (*tip*), September, p. 235
- lymphoma
 - gastric (*tip*), August, p. 245
 - large cell, diffuse, localized (*tip*), August, p. 258

m

- Majzlin spring revisited, *December, p. 123
- malaria, Fansidar® prophylaxis for (*tip*), September, p. 228
- mammary tuberculosis (*tip*), November, p. 282
- marijuana, obtaining, for therapeutic purposes (*info pl*), August, p. 45
- mastectomy, treating breast cancer without (*tip*), September, p. 252
- measles, atypical, syndrome (*tip*), December, p. 211

squirrel, flying, typhus organism
may be carried by (*news*),
December, p. 225
status epilepticus (*tip*), October,
p. 245
stents, biliary drains and, endo-
scopically placed, *August,
p. 189
sterilization method, silicone plugs
show promise as (*med*),
August, p. 225
stillbirths, chlamydial infections are
named as possible risk factor in
(*news*), July, p. 240
stimulants, how hyperactive children
feel about (*tip*), December,
p. 202
streptococcal infection, Group B,
perinatal (*tip*), August, p. 238
streptococcus, Group B, and cesar-
ean sections (*tip*), July, p. 229
stress fractures
— pelvic, found in female runners
over 30 (*med*), December,
p. 173
— scintigraphic diagnosis of (*tip*),
November, p. 272
stroke rehabilitation
— part I. cognitive deficits and
prediction of outcome,
*November, p. 207
— part II. recovery and complica-
tions, *December, p. 143
stroke victims, cerebral hemorrhage
in, study identifies indicators of
(*med*), September, p. 214
strokes in children (*tip*), August,
p. 249
sucking, nonnutritive, during tube
feedings (*tip*), December,
p. 187
sudden infant death syndrome
— (*tip*), August, p. 240
— (*tip*), September, p. 231

sulindac, adverse reactions to (*tip*),
October, p. 246
sweat test in cystic fibrosis (*tip*),
July, p. 228
syphilis
— interpreting serologic tests for,
*August, p. 157
— secondary, liver involvement in
(*tip*), July, p. 222
— treating, with tetracycline,
*July, p. 131
syringomyelia after spinal cord
injury, *July, p. 145

t

tardive dyskinesia, patients with,
are often unaware of symptoms
(*med*), August, p. 221
taurine, platelet, and migraine
headaches (*tip*), November,
p. 276
temporomandibular joint dysfunction
in children (*tip*), October,
p. 255
testicular tumor, nonseminomatous
germ cell (*tip*), November,
p. 274
testosterone, short stature treated
with (*tip*), December, p. 198
tetracycline, treating syphilis with,
*July, p. 131
thymectomy for myasthenia gravis
(*tip*), September, p. 246
thyroid therapy, laboratory tests for
evaluating, *September, p. 183
tooth extractions, tuberculosis
following (*tip*), August, p. 248
toxic shock syndrome (*tip*),
October, p. 265
trauma, blunt, indications for IVP
after, are delineated (*med*),
October, p. 228
traumatic rupture of the thoracic
aorta, *September, p. 153

traveler, international, poliomyelitis vaccination for, *December, p. 135
 tricyclic antidepressants and cardiac disease (*tip*), July, p. 230
 tube feedings, nonnutritive sucking during (*tip*), December, p. 187
 tube ventilation, myringotomy and, in adults, *October, p. 181
 tuberculosis
 —following tooth extractions (*tip*), August, p. 248
 —mammary (*tip*), November, p. 282
 tumor-induced hypoglycemia (*tip*), November, p. 263
 tumors, carotid body (*tip*), September, p. 243
 typhus organism may be carried by flying squirrel (*news*), December, p. 225

u

ulcer(s)
 —duodenal, surgical treatment of (*tip*), September, p. 225
 —leg, plastic bag makes a good hyperbaric chamber for (*med*), August, p. 222
 ulcerative colitis, chronic, azathioprine for (*tip*), September, p. 235

ultrasonography, gynecologist points out more uses of (*med*), August, p. 222
 umbilical vein grafts (*tip*), September, p. 238
 urinary tract infections in young infants (*tip*), August, p. 257
 urinometry, exactness of, compared to osmometry (*info pl*), August, p. 45
